San Millán plot, planted in 1986 to Tempranillo. Trained in goblet in calcareous clay soil, and at an altitude of 610 m.

WINEMAKING

This red wine is the original wine of the winery, where it all began. It is the pure grape juice from our area. We only use grapes from our family vineyards and from our traditional suppliers. All the grapes are harvested by hand, to ensure the best quality of the fruit.

We select our clusters in the vineyard. The magical process then begins in the winery, where all the sugar in the berries is gradually transformed into alcohol, giving off the most amazing perfume anyone can imagine.

That way, we get this wonderful purplish, dark red juice, cheerful, fun, and sometimes sassy.

TASTING NOTES

APPEARANCE: Red color with purple hues, bright and clean.

NOSE: Aromas of red fruit, floral notes, peach skin, and white fruit are highlighted against a lively and refreshing background.

PALATE: The palate is fleshy, structured, fruity, with good acidity, and a long lingering finish highlighted by red fruit.
