

Apunte nº 9 Rosé 2022- 900 bt

The Apuntes are perhaps the winery's most unique wines. Spontaneous and unpredictable in nature, they emerge during the harvest based on what Javier finds or is suggested by the grapes he brings to the winery and the references he has accumulated over years of tasting wines from other places. In them, we explore unusual territories for Rioja wines, working with the freedom that comes from knowing that they will not form part of the winery's catalogue and that they will be unrepeatable. One wine, one vintage

VARIETY	70% Garnacha 30% Mazuelo
